

# RAINBOW

## FRICITION SURFACE BELTING

For all driving purposes, RAINBOW Friction Surface Rubber Belting is the logical and recognized substitute for leather belting. The cost is less, and at the same time it gives proportionately more power and better service. RAINBOW is made of high class materials, having minimum stretch, and a most wonderful pull. This belting gives nearer 100 per cent efficiency than any other belting on the market. A trial will convince you. You should adopt RAINBOW belting NOW.
